Subject: New Project Manager for Leviathan

Hello Mr. Halsey and Mr. Brown,

I'm writing to let you know that EPA has selected a new Remedial Project Manager, Julie Sullivan, for the Leviathan Site. We're looking forward to introducing her to you in person on September 29 during the site tour with the Washoe Tribe (or otherwise). Here is a brief description of Julie's background and her contact information. Gary Riley and I will continue to work closely with Julie as she becomes familiar with the site.

Julie Sullivan has been a project manager with the EPA since January 2017. Prior to joining the EPA, Julie was an environmental consultant for more than 19 years, serving private companies and public organizations in the US and Canada. She is a licensed professional engineer experienced in the areas of project leadership and management, business development, site assessment and investigation, remedial alternative evaluation, remedial design and implementation, cost estimating and cost recovery analyses, hazardous waste management, and regulatory analysis and negotiation.

Julie Sullivan

Environmental Engineer

Superfund Project Manager

U.S. EPA, Region 9

Phone: 415.972.3939

Email: sullivan.julie@epa.gov

Thank you,

Dana
